*“...the development of the first cities corresponds not only to the appearance of the technician of fire but ..... writing is born at the same time as metallurgy. Here again, this is not a coincidence ..... it is at the moment when agrarian capitalism began to establish itself that the means of stabilizing it in written balance accounts appears and it is also at the moment when social hierarchization is affirmed, that writing constructs its first genealogists” ..... "the appearance of writing is not fortuitous; after millennia of maturation in the systems of mythographic representation, there emerges, along with metal and slavery, the linear notation of thought. Its content is not fortuitous.”*

*“Mythogram : a writing that spells it's symbols pluri-dimensionally...”*
