

Words associated with REALITY.

*DIFFERENCE* - the product of differential comprehending. The basis of reality.

*OBJECT* - a constituent of reality; a differentiated thing.

*IS* - the condition of being real.

*SIGN* - represents an object in the text.

Equivalent words associated with ACTUALITY.

*UNDERSTANDING* - the meaning of our actual singular state of things.

*THING* - zonal or phasic constituent of singularity. Every thing under-stands every thing.

*AS* - the condition of being actual. As the actual, singular state of understanding, nothing can be different from another, therefore each as the others.

*SYMBOL* - constituent of a singular thing, which nevertheless can present its singularity in the form of a real object.

The provisional glossaries above are offered as reference points, and similar will appear as the work proceeds. But to develop these ideas, I want to continue my approach (quite literally) to the Widows and Bairns memorial and environmental artwork in Eyemouth.
